Lippincott’s Nursing Procedures and Skills

Designed by clinical nurses for clinical nurses, Lippincott’s Nursing Procedures and Skills helps improve and standardize patient care.

- Nurses use reference tools most often at the bedside. We give you access at the point of care, when and where it’s needed.
- All content comes directly from our clinical nurse experts and is overseen by our top-notch editorial staff.
- Procedures cover all the key specialty areas needed in a hospital setting.
- Material is updated regularly with the most recent clinical evidence and standards.
- We put all the relevant information at the appropriate steps, so there’s no searching for additional graphics or video.

It's the leading-edge tool in every way: content, functionality, expertise and timeliness. Just a few of the many ways we keep your staff ahead:

**Ensure a consistent standard of care with *institution-wide online access*.**

- Nurses can get to the information they need **quickly and intuitively**.
- Access more than **900 evidence-based procedures** and skills online—no log-in required!
- **Step-by-step** procedures provide highly-detailed instruction.
- **Quick Lists** offer a high-level overview.
- “Custom select” boxes allow nurses to **customize the procedure view or quickly jump to the section they need**. Sections include:
  - Introduction
  - Equipment
  - Preparation of Equipment
  - Implementation
  - Special Considerations
  - Patient Teaching
  - Complications
  - Documentation

**Lippincott’s Nursing Procedures and Skills helps ensure your nurses are safely delivering patient care.**
• **Evidence-based-references** show the evidence on which the procedure is based.

• **NEW!  Starting in March 2010, the evidence level of references will be rated** using the Melnyk’s Rating System for the Hierarchy of Evidence.

• **Skills checklists** help you evaluate staff.

• **Question and answer competency tests** provide administrators, managers, and educators with an additional competency measurement tool.

• **Compelling color visuals**—including hundreds of video clips—make learning clearer.

**And you're in control at all times.**

• Edit content to match your policies and standards.

• Create an unlimited number of customized checklists, procedures, and nursing and clinical categories.

• Track revisions with unique Audit Trail feature.

• Delete and reinstate procedures as needed.

• Manage and track users as well as skills checklist results.

• Add your institution’s logo.

**And more...**

• **Print and e-mail options** let users send or print out for later review.

• **Notes** feature lets you annotate procedures for users.

• **Immediate keyword search and hypertext links** help users locate any information in a flash.

• **Browse** by nursing specialty, clinical category, or A-Z list.

• **Maintain compliance** with current institutional guidelines—including those from The Joint Commission and the American Association of Critical Care Nurses.

**Nursing Specialty Areas**

• Medical Surgical

• Critical Care

• Maternal-Neonatal

• Pediatrics

• Psychiatric

• Emergency
